

Part Number: TG060000 Model: VARIABLE SPEED DRIVER V1

Application fields: pulley variable speed driver set up to 80 Hp (60 KW) engines. The two pulleys have the working device at watertight and lubricated by special grease, so to guarantee a device long life up to 50.000 Km. The recommended transmission belt is trapezoidal kind 36 x 14 x 1113 with wheelbase 320 mm (Dayco)

Total weight: 10 Kg

Initial ratio: Ri = 0,35

Final ratio: Ri = 1,64

Total variation range: 4,69

THE UNITS CAN BE DRAWN WITH DIFFERENT PULLEY DIAMETERS AND THEREFORE WITH DIFFERENT RATIO AT SPECIAL CUSTOMER REQUEST.
